

## My current solution

### Multi-Function, Partition Mounted

#### Identifying features:

These are large units that can be either cut into a toilet partition (the panel dividing two toilet stalls), or cut directly into the wall. They may have a napkin disposal unit and toilet seat cover dispenser but will always have two rolls to service one toilet stall. There are also some partition-mounted units that contain just bath tissue, with two rolls on either side, to service two toilet stalls. The spindles in these units may have been changed from a standard spring-loaded spindle to a theft-resistant spindle that requires a key to loosen.

## My Tork solution

### Tork Coreless High Capacity Spindle Kit, Type A or B

#### Possible spindle upgrades:

473030 Spindle kit for Tork Coreless High Capacity Bath Tissue Rolls, for Drop Down Dispensers Type A

473020 Spindle kit for Tork Coreless High Capacity Bath Tissue Rolls, for Drop Down Dispensers Type B

A spindle kit from Tork is an easy way of converting your current bath tissue dispenser into one which can use Tork Coreless High Capacity Bath Tissue Rolls.

- Highly compacted rolls more than doubles the capacity.
- No cardboard cores like in standard toilet rolls and no wrappers means there's less waste to handle.
- Less frequent refilling means lower maintenance costs.

*Note: Both the Type A and B spindle may work in your dispenser. The correct one depends on arm width. Your Tork representative will supply you with both.*

- Poly-bundle packaging reduces inventory space required, making refill storage and retrieval easier than traditional roll tissue.
- Without the core, you gain more - two high-capacity rolls are equivalent to five rolls of conventional bath tissue.
- Soft quality tissue with an embossed pattern delivers the comfort of 2-ply softness with reliable performance you can count on.
- This product contains recycled fibers (minimum 40%) and a minimum of 20% Post Consumer fibers - environmental benefits and positive image builder.
- EPA Compliant and FSC certified for reduced environmental impact.
